Neighborhood NETWORK

Your connection to independence, choice and a more care-free lifestyle.

Neighborhood
NETWORK

Helping you navigate the transitional years...

Neighborhood Network is a member services program modeled after a community called Beacon Hill Village, where, through the support and assistance of a "network", members are able to remain in their own homes, in the neighborhoods and communities where they have always lived and worked.

Joining Neighborhood Network brings peace-of-mind. Membership includes access to a variety of helpful, local resources. A simple phone call connects members to a worry-free way for identifying reliable, high quality services and information. You'll speak with a person, not a machine, who will assist with a solution quickly and efficiently.

"Our ultimate goal, after all, is ...
a good life to the very end."

-- Atul Gawande,
Being Mortal: Medicine and What Matters in the End

Membership is open to residents of York, Ogunquit, Wells, Kittery, South Berwick and Eliot, Maine. If you are interested in becoming a member or would like more information, please call our office at (207) 351-1828.
